1. In view of the papers filed 7/27/06, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(b) and (c). The inventorship of this application has been changed by adding Pierre LeProust and deleting Laurent Courvoisier, Stephanie Graf, Gilles Serrure, Gerard Coquerel, Sebastien Rose, Christine Besselievre, and Adriaan Jan Van Langervelde.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1) In the specification, page 42, line 4, "FIGURE" is changed to

- - BRIEF DESCRIPTION OF DRAWINGS - -

3. The following is an examiner's statement of reasons for allowance: Rejection of claims under 35 USC 102 and 103 over prior art of record are hereby withdrawn subsequent to applicants' amendments and arguments. The closest prior art is Lafon(US 4,927,855). The Lafon '855 patent does not expressly teach or describe the claimed Form I polymorph of (-)-modafinil. Applicants have established by way of

Art Unit: 1621

declarative evidence that recrystallization of (-)-modafinil from ethanol, as taught by the Lafon'855 patent, leads to production of various polymorphic forms of the compound, depending upon the particular conditions employed to perform the recrystallization. The Lafon '855 patent is silent regarding the conditions that were utilized to perform the recrystallization. Thus, it cannot be said that practicing the teachings of the Lafon patent would necessarily result in a polymorphic form of (-)-modafinil as recited in the instant claims. See various case laws submitted in the form of remarks on 7/14/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
